

Bio-Scalar technology for optimal Health and Wellness: the Future of Medicine

The key to healthy aging is natural system balance, increased cell membrane potential and the achievement of successful detoxification and accelerated regeneration of tissues and organs. After more than 17 years of development, research and implementation, cutting edge energy wellness technology has been made available that utilizes multiple bio-active fields including scalar energy to create hyper-healthy energetic environments that have been shown to dramatically optimize dynamic human system homeostasis including: physical, mental, emotional and spiritual balance. As we further explore the relationship between bio-photonics, cellular regeneration and Bio-Scalar technologies, we look toward understanding the cellular mechanisms of anti-aging and the promotion of optimal health, wellness, rejuvenation, peak performance and longevity.

In this fast moving presentation you can:

- Gain understanding of the science and scientists behind bio-scalar technologies, bio-photonics fusion, and various modalities of energy medicine including self-perpetuating healthy energetic fields and the nullification of serious problems we are facing with disruptive man-made fields and electromagnetic pollution.
- Identify real-life applications and advantages using bio-scalar therapies in clinical and personal settings and the achievement of “miraculous” results.
- List and describe exciting on-going qualitative and quantifiable research demonstrating the efficacy and results leading to increased cellular energy and homeostasis, increased optimal trans-membrane potential and healthy cells and organs.
- Learn about the documentation of dramatic improvements in lifestyle and function in case studies: fixed neuro-deficit, stroke, diabetes, neuropathy, cardiac, renal issues.
- Describe bio-regenerative scalar technology utilization in various environments and applications to increase cellular energy milli-voltage and cellular absorption rates with resultant improvement in overall health, wellness and homeostasis and the implications for promoting optimal brain states, wellness and longevity.

Dr. Sandra Rose Michael, DNM, For over 17 years Dr. Michael has collaborated with leading biological scientists, physicists, physicians, and world leaders to invent, develop, research and implement bio-regenerative scalar technologies leading to the integration of bio and quantum physics, science, and body-mind homeostasis through the EESystem.

Dr. Michael is Senior Director of Energy Medicine for the Global Foundation for Integrative Medicines; Faculty, Institute of Energy Wellness Studies; Guest Lecturer for Mount Sinai and other medical schools; and has presented to Parliament, Social Security and Ministries of Health in other nations.
